CAMO FORM

SELF-CLING CAMOUFLAGE WRAP

Camo Form allows for camouflage flexibility and customization of a weapon or other equipment unlike any other product. Camo Form® helps protect from dust and debris, reducing overall equipment maintenance.

- Reusable and Residue Free
- Easy to Use Stretch Fabric
- Clings to Itself, Not to Your Weapon or Equipment
- Provides Heavy Duty Protection
- Quiets Loose Items and Gun Parts
- Protects Hands & Improves Grip in Extreme Conditions
- Conceals and Reduces Glare
- Conforms to Any Object - Weapons, Knife Handles, Scopes, Binoculars, Flashlights, Sheaths, Ammo Clips etc.
- Versatile, Hundreds of Uses.

Finally you can bring any of your guns into the field without worrying about damage from scratches, nicks or worse! And unlike messy tapes, Camo Form® leaves no sticky residue when removed. It stays solidly in place and won't sag, even in wet weather. It conforms to any shape and can be cut and applied to the smallest moving parts. 1 Unstretched Roll: 1 Roll = 5.1 cm wide and 366 cm Long.

One Camo Form® Roll Covers One Average Size Weapon

SEAMGRIP®

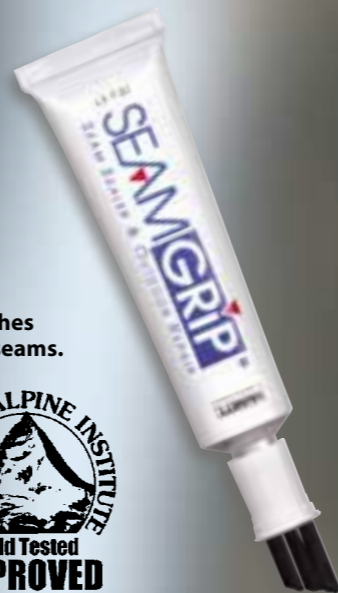

SEAM SEALER & FIELD REPAIR

REPAIRS, SEALS AND PROTECTS AGAINST ABRASION!

ITEM NUMBERS:

Product	Item
Seam Grip® 28g.....	10515
Seam Grip® 250 ml OEM.....	10914

- Permanently Seals Seams and Leaks, Repairs Tears, and Patches Holes On Tents, Packs, Inflatable Mattresses, Outerwear, Boots etc.
- Unaffected by Arctic Cold or Desert Heat
- Flexible – Stretches with 100% Memory
- 100's of Uses in the Field

Angled brush tip easily reaches under folded and lapped seams.

Seam Grip® urethane repair adhesive permanently seals seams and leaks, repairs tears, and patches holes on tents, packs, sleeping pads and rainwear. Long considered the industry standard, Seam Grip® was awarded the prestigious Editors' Choice Gold Award from Backpacker Magazine in 2002. Use Seam Grip® to repair surfaces or seal seams of natural and synthetic fabrics, waterproof laminates, leather and vinyl. Seam Grip® may be used to repair all types of waders and footwear, neoprene, PVC, rubber etc. Concentrated and waterproof, Seam Grip® offers excellent adhesion, long lasting flexibility, superior traction and abrasion resistance, with minimal shrinkage. For fast cure use with McNett Cotel-240™.

Additional User Comments:

Users are always impressed at the extreme toughness and waterproofness of seams sealed with Seam Grip®. We have had users make tents and tarps without stitching by simply bonding all the seams with Seam Grip®. The results have been incredibly strong, waterproof shelters. Many users have commented that "factory seam tapes last a certain number of years, but Seam Grip® lasts forever." Users have sealed seams on tents, packs, outerwear, boots etc. Seam Grip® is also used to repair holes in tents, packs, clothing and other equipment.

COTOL-240™

Urethane Cure Accelerator and Pre-cleaner

Cotel-240™ Cleaner & Cure Accelerator is a urethane cure accelerator and pre-cleaner to be used in conjunction with Aquaseal® and Seam Grip®. The solvent cleans and prepares the surface, readying it for both Aquasure® and Seam Grip®, speeding the tack time to 15 minutes and the full cure time to less than two hours. McNett Cotel-240™ is also ideal for removing tar, sap, glue, and other resins from various surfaces including glass, plastic and metal. Available in 15 ml bottle and 1 l Can.

- Use with Aquasure® and Seam Grip® urethane adhesives
- Accelerates cure time to less than 2 hours
- Pre-cleaner on smooth surfaces
